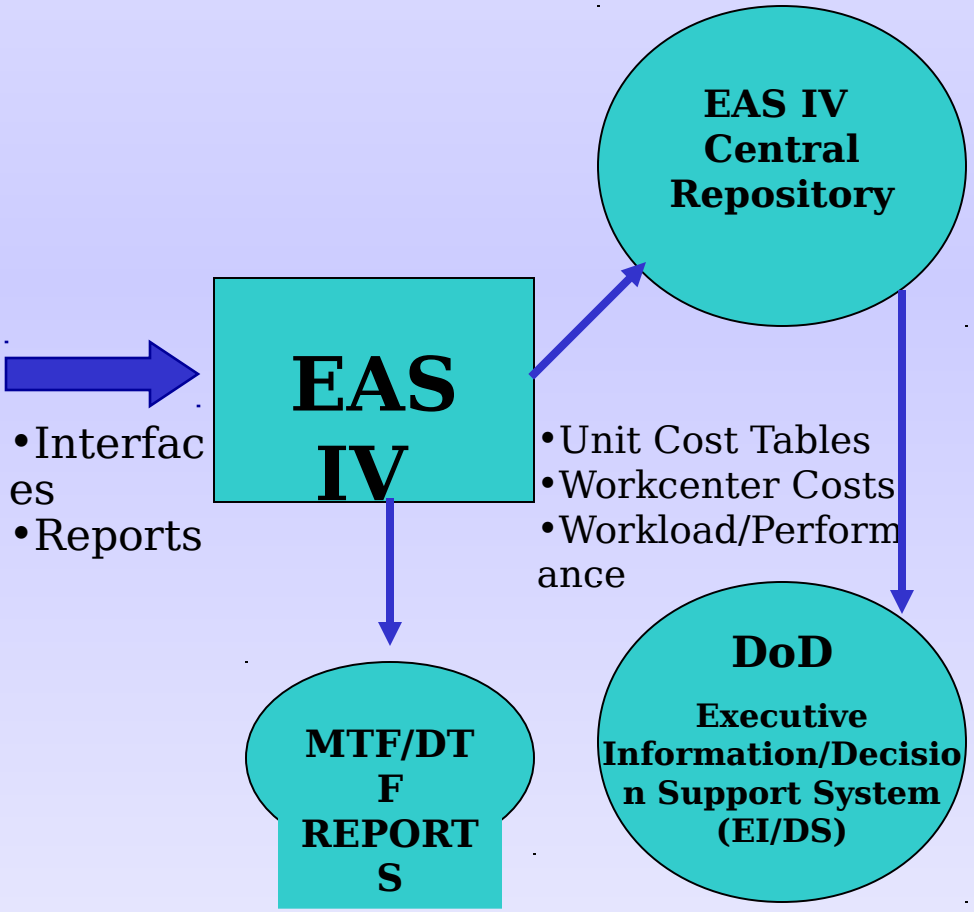
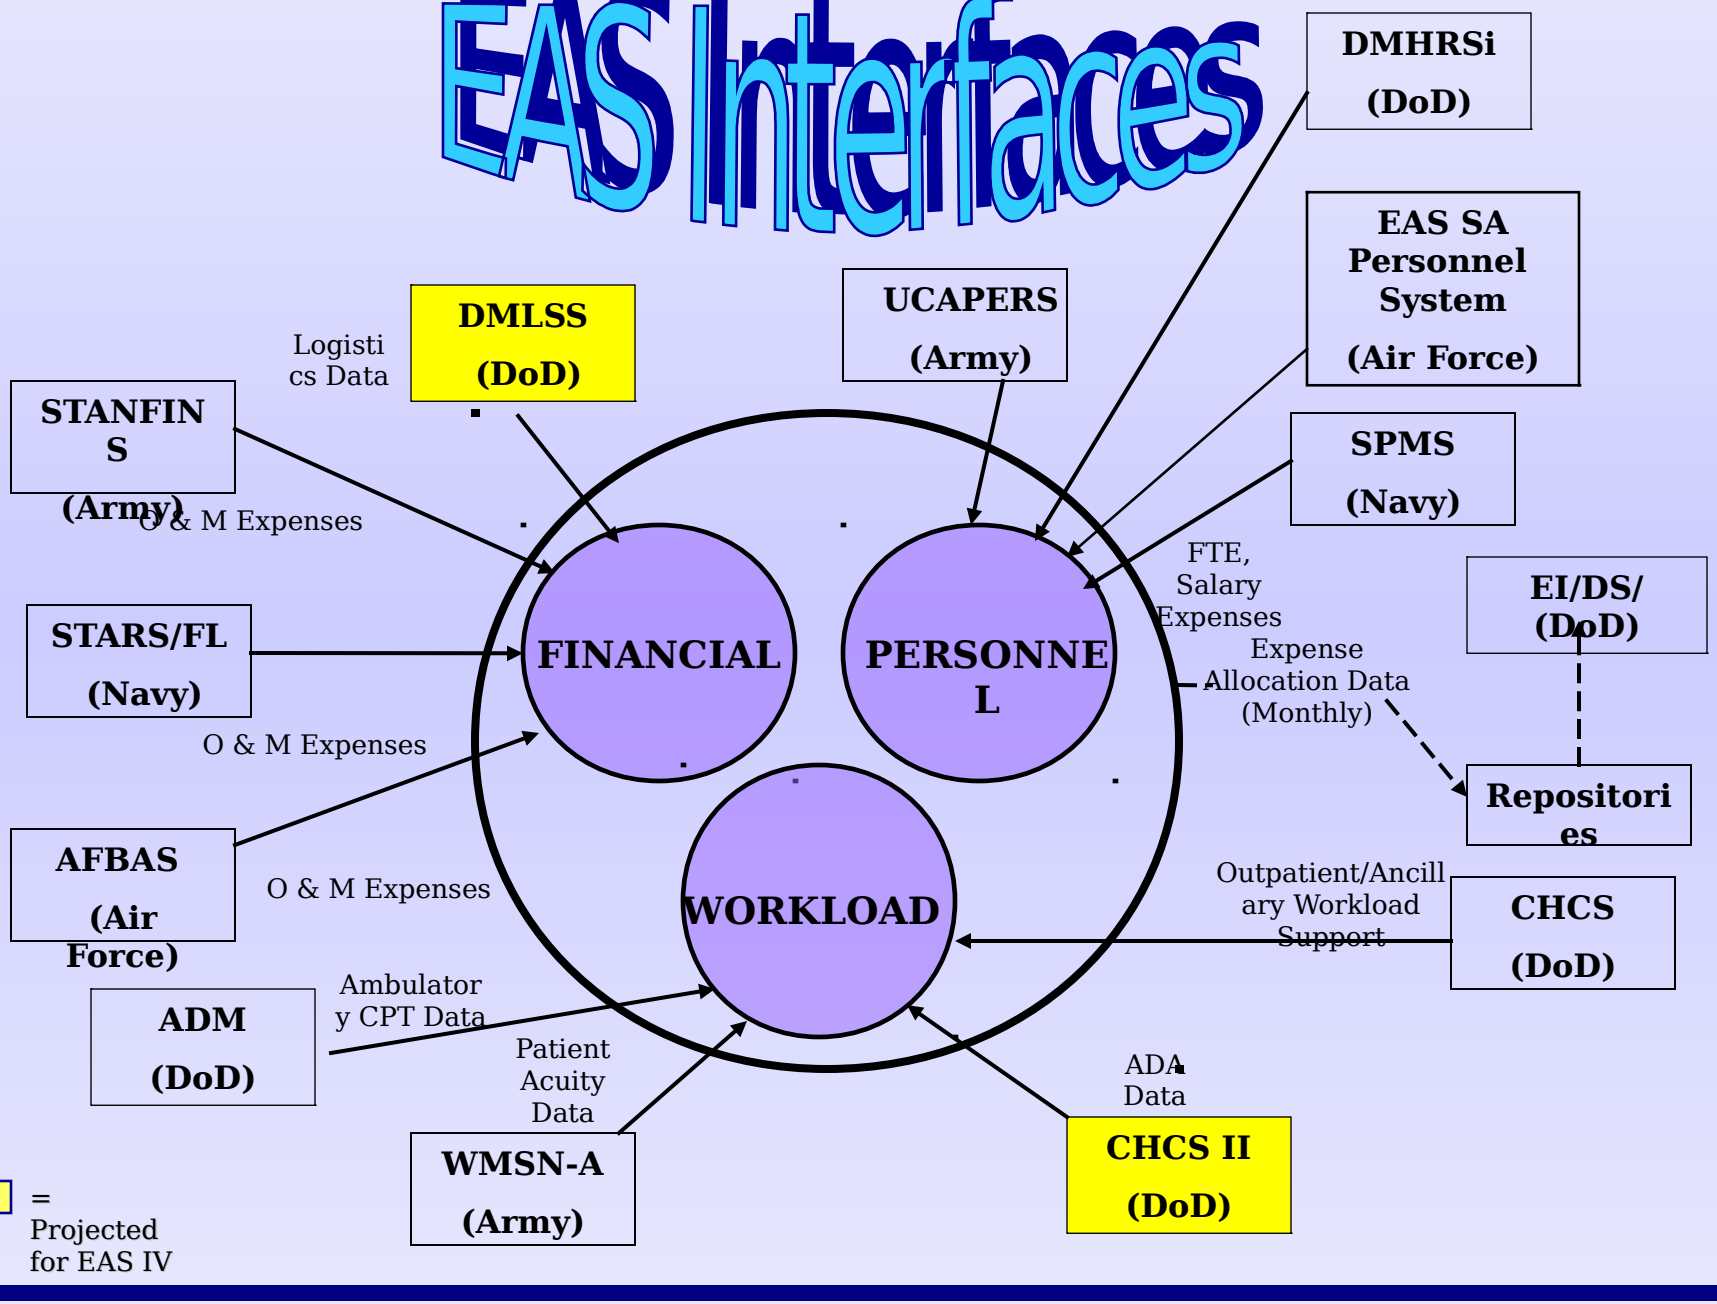
- Workload Management System for Nursing-Army (WMSN-A)



EAS Interfaces



EAS IV Functionalities

- **Windows based application.**
- **Object oriented software engineering.**
- **Relational database for more flexibility in viewing and comparing data.**
- **Ad hoc report writing tool.**
- **Client-server technology.**
- **Robust data validation.**
- **Audit capabilities/tracking.**

EASIV Functionalities

- **Interface with ADM for ambulatory data.**
- **Capability for monthly DRG costing.**
- **Better tracking of salary expenses.**
- **Business rules for validation of all incoming data.**

EAS IV Functionalities

- **95% of quality control/validation check will be accomplished prior to initiation of monthly data processing.**
- **Both errors and warnings must be addressed before monthly data processing can be completed.**

EAS IV Data Quality

Common Items to Monitor

- Personnel Interfaces
- Financial Interfaces
- Workload Interfaces

EAS IV Data Quality

- **The EAS IV system performs regular file checks upon importation of various data files such as the ADM and CHCS files.**
